Mike,

Thanks for the new business cards. As you can see, my old one was a bit worn. A few too many times falling off logs into the water. They never look that slippery and I needed to get into a good position for a cast.

Not sure how long I've had it in my wallet, but it's been a few years. We moved from Green Bay in 1981, but when you find a great Agent you stick with them.

Thanks for all of your work over the years!
